

**CORN
THE
HALL**

Join us to celebrate the opening of

Transformative Nature

on Friday 16 February 2024

from 6pm - 8pm

Upper and Lower Galleries

The Corn Hall, Diss.

Humankind's footprint has triggered the next geological era for our planet, known as the 'Anthropocene'. Our activity has had an enormous impact, fundamentally altering the planet's climate, geology and ecosystems.

This is an exhibition and conversation between five artists whose work centres around arts, ecology and science.
